

# THE EARTHPRO® COLLECTION

Certified by Control Union  
CU 1050913

**ØRN IS CERTIFIED TO THE GRS - GLOBAL RECYCLED STANDARD,  
WHICH VERIFIES RECYCLED CONTENT AND TRACKS IT FROM  
SOURCE TO THE FINAL PRODUCT.**

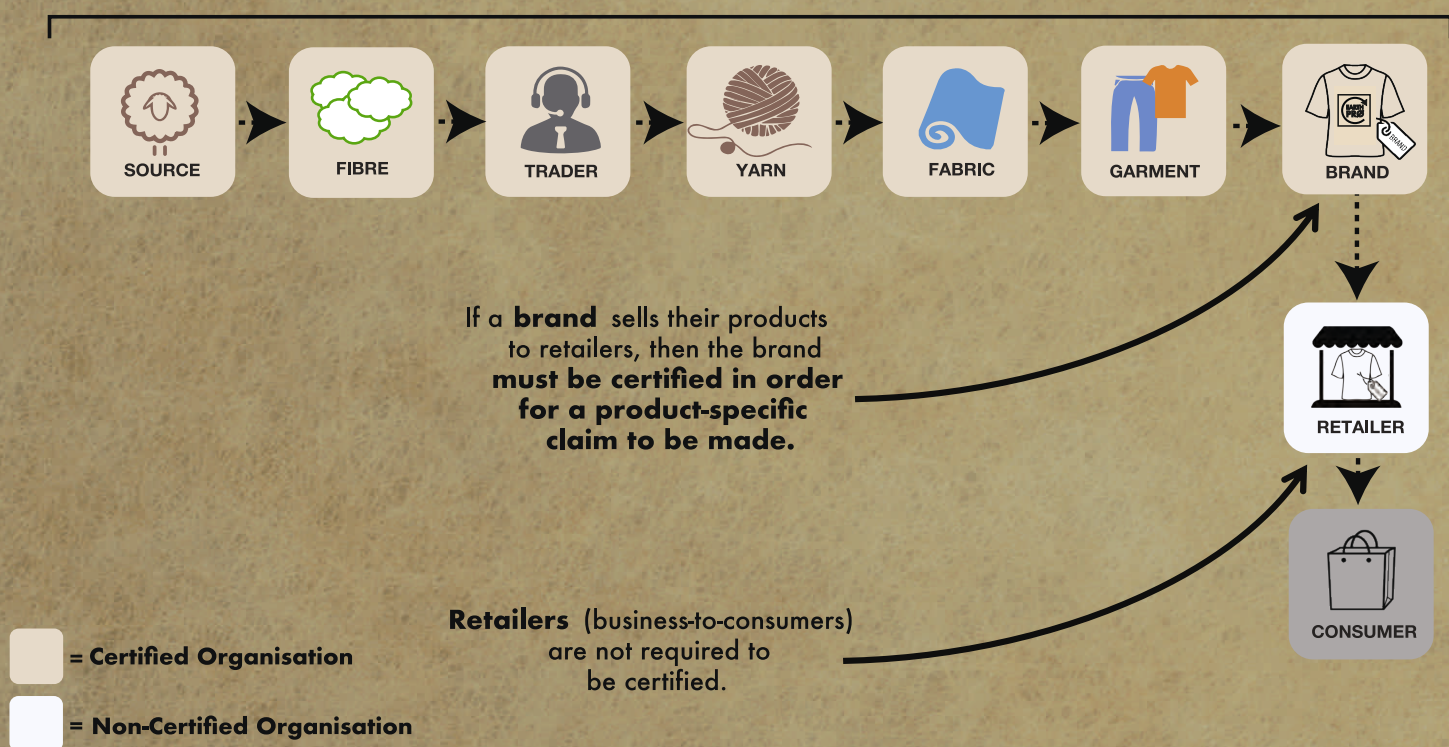

As the demand for recycled product increases, ØRN has committed to an internationally recognised, independently verified certification process to ensure the integrity of its sustainable products.

Certification is a means to confirm that the levels of social and/or environmental performance claimed for a product are correct and verified by an external party.

Third party certification is considered one of the strongest ways to ensure the integrity of supply chain and sustainability claims. By using this system, an independent third party gives assurance that a company, process, or product is compliant with the requirements of a particular standard.

## THE GRS AUDIT CHAIN

**All sites** must be certified through to the seller in the last business-to-business transaction. Usually the last stage to be certified is the garment manufacturer or the brand.

# THE EARTHPRO® COLLECTION

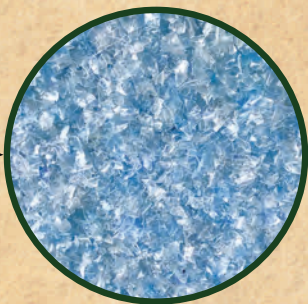

## POST-CONSUMER RECYCLED POLYESTER

Plastic is collected  
from the seas,  
rivers and landfill

Plastic is shredded  
into Flakes

Flakes are melted  
into pellets

Pellets are extruded  
into yarn

The Recycled Polyester  
is then made into garments

Post-Consumer Recycled Polyester  
is used in the manufacturing  
of our EarthPro® collection  
of garments.
