ØRN IS CERTIFIED TO THE GRS - GLOBAL RECYCLED STANDARD, WHICH VERIFIES RECYCLED CONTENT AND TRACKS IT FROM SOURCE TO THE FINAL PRODUCT.

Certification is a means to confirm that the levels of social and/or environmental performance claimed for a product are correct and verified by an external party.

Third party certification is considered one of the strongest ways to ensure the integrity of supply chain and sustainability claims. By using this system, an independent third party gives assurance that a company, process, or product is compliant with the requirements of a particular standard.
