AT HEATHBROOK, WE HAVE A CLEAR VIEW OF OUR ROLE

Our job is to provide you with a hassle free process, ensuring everything runs smoothly.

We don't have a minimum order quantity, and our online system keeps a record of each uniform issued. We offer innovative stock solutions, and our friendly customer service team are always on hand to help. Plus, to make ordering even simpler, uniform sets can be shown by job function too.

NO COMPLAINTS

We know the importance of employee satisfaction – so we go the extra mile to get it right. We'll do a site survey to see your employees in action, and talk to them before making recommendations. Modern fabrics are used, and we incorporate quality elements such as triple stitching. We even offer footwear workshops because we understand the importance of being comfortable when you are on your feet all day.

WE CONSIDER EVERY DETAIL

Whether it's an extra pocket for a radio unit, hiding a logo when off duty, micro-chipping uniforms or metal-free zips, we'll work closely with you to devise the best possible solution, at the right price.
